SUPPLEMENTARY QUESTIONS

PATIENT DECLARATION for all patients who are not ordinarily resident in the UK

Anybody in England can register with a GP practice and receive free medical care from that practice. However, if you are not 'ordinarily resident' in the UK you may have to pay for NHS treatment outside of the GP practice. Being ordinarily resident broadly means living lawfully in the UK on a properly settled basis for the time being. In most cases, nationals of countries outside the European Economic Area must also have the status of 'indefinite leave to remain' in the UK.

Some services, such as diagnostic tests of suspected infectious diseases and any treatment of those diseases are free of charge to all people, while some groups who are not ordinarily resident here are exempt from all treatment charges.

More information on ordinary residence, exemptions and paying for NHS services can be found in the Visitor and Migrant patient leaflet, available from your GP practice.

You may be asked to provide proof of entitlement in order to receive free NHS treatment outside of the GP practice, otherwise you may be charged for your treatment. Even if you have to pay for a service, you will always be provided with any immediately necessary or urgent treatment, regardless of advance payment.

The information you give on this form will be used to assist in identifying your chargeable status, and may be shared, including with NHS secondary care organisations (e.g. hospitals) and NHS Digital, for the purposes of validation, invoicing and cost recovery. You may be contacted on behalf of the NHS to confirm any details you have provided.

Please tick one of the following boxes:

- a) I understand that I may need to pay for NHS treatment outside of the GP practice
 b) I understand I have a valid exemption from paying for NHS treatment outside of the GP practice. This includes for example, an EHIC, or payment of the Immigration Health Charge ("the Surcharge"), when accompanied by a valid visa. I can provide documents to support this when requested
 c) I do not know my chargeable status

I declare that the information I give on this form is correct and complete. I understand that if it is not correct, appropriate action may be taken against me.

A parent/guardian should complete the form on behalf of a child under 16.

How will your EHIC/PRC/S1 data be used? By using your EHIC or PRC for NHS treatment costs your EHIC or PRC data and GP appointment data will be shared with NHS secondary care (hospitals) and NHS Digital solely for the purposes of cost recovery. Your clinical data will not be shared in the cost recovery process.

Your EHIC, PRC or S1 information will be shared with The Department for Work and Pensions for the purpose of recovering your NHS costs from your home country.

SHARING YOUR NHS PATIENT DATA

Information sharing in the NHS is subject to rigorous regulation and governance to ensure your full identifiable and personal medical data is kept confidential and only ever seen by carefully vetted doctors, nurses and administrative staff responsible for overseeing your care.

With the development of information technology the NHS will increasingly be sharing key information from your GP medical notes with Out of Hours GP Services, Hospital A&E Units, Community Hospitals, Community Nurses all of whom may at various times in your life be looking after you. Sharing information can improve both the quality and safety of care you receive and in some cases can be vital in making life-saving decisions about your treatment.

There are two different elements aimed at ensuring continuity and safety in your personal care:

- **SCR = The NHS Summary Care Record**
- **EDSM = The Enhanced Data Sharing Model 'SystemOne'**

We ask you please to read the information on this page carefully and complete the relevant fields on the form overleaf, sign and return to us.

SCR = NHS SUMMARY CARE RECORD

The NHS Summary Care Record was introduced many years ago to help deliver better and safer care; it contains basic information about:

- Any allergies you may have
- Unexpected reactions to medications, and
- Any prescriptions you have recently received.

The intention of the SCR is to help clinicians in Hospital A&E Departments and GP 'Out of Hours' health services to give you safe, timely and effective treatment. Clinicians are only allowed to access your SCR record if they are authorised to do so and, even then, only if you give your express permission. You will be asked if healthcare staff can look at your Summary Care Record every time they need to, unless it is an emergency, for instance if you are unconscious. You can refuse if you think access is unnecessary.

Patients under 16 years have an NHS Summary Care Record created for them so if you are the parent or guardian of a child then please either make this information available to them or decide and act on their behalf.

EDSM = ENHANCED DATA SHARING MODEL – SYSTEMONE

The Westbank Practice uses a computer system called SystemOne that gives your GP the facility to share your full electronic records across different NHS Care Services that are involved in your care. Allowing your GP to share your record in the 'SystemOne' database helps to deliver better and safer care for you. You can choose to share or not to share your electronic GP record with other NHS Care Services. If you chose to decline sharing you are able to determine if data is 'shared out' and/or 'shared in'

Sharing OUT controls whether information recorded at our GP practice can be shared with other NHS health care providers.

Sharing IN determines whether or not our GP practice can view information in your record that has been entered by other NHS services who are providing care for you or who may provide care for you in the future (*that you have consented to share out*).

Please complete and sign the form overleaf to detail your personal decisions regarding NHS patient data sharing.

NHS PATIENT INFORMATION SHARING – MY CHOICES

Please complete and/or tick the **grey** boxes below to detail your personal decisions:

It is very important you sign this form to say that you understand and accept the risks to your personal health care if you do decide to opt out of SCR or EDSM. Hand the completed form in to your GP Surgery; they will scan this form into your NHS GP Medical Records and enter the appropriate computer codes.
